FRIENDS AND PATRONS

GREETING:—

IN presenting my catalogue for the new year, I wish to thank my numerous customers for past favors received from them, and to express my gratification in the generous amount of orders entrusted to me. I wish to call attention to the fact that my stock consists of strong, field-grown roots true to name. I solicit orders with a confidence born of past experience and in continuance of the same assure them that all orders shall, as before, receive prompt and careful attention.

Yours respectfully,

W. P. LOTHROP.

Cactus Dahlias

New Varieties.

- 42 **Ivanhoe**. Bright straw color, a fine variety with long narrow petals, fine form, and large sized flowers, an early blooming variety, 50c.
- 40 **William Marshall**. A flower of gigantic dimensions, finest possible form, and petals, and a champion exhibition dahlia. The color is rich orange with bright yellow in the centre, \$1.
- 31 **Mrs. Stanack Gaskill**. Color a delicate and exceedingly beautiful shade of pink. It is of good form, large size, 75c.
- 34 **J. B. Riding**. Undoubtedly one of the finest exhibition flowers we have. The petals are very narrow, perfectly incurved, and exceedingly numerous; forming magnificent flowers. Color rich yellow at base shading to deep orange, but decidedly tinged with apricot on outer petals, 75c.

- 36 **Victorian.** This variety is equal to the finest self-colored flowers in form and petal, but has the additional attraction of belonging to the fancy cactus section. The ground color is pinkish white, freely striped, and speckled with deep crimson, and purple. This variety is a most useful addition for exhibition, \$1.
- 38 **Mrs. F. Grinsted.** A most valuable addition, being a deep rich crimson with just a suspicion of purplish shading. The formation of the bloom is of the finest incurved type. The habit is good and no fault will be found with the stem, 75c.
- 39 **Mrs. G. Stevenson.** One of the best yellow varieties yet raised. Flowers large with narrow petals arranged star shaped. Very erect habit, \$1.
- 43 **Mrs. Macmillian.** In color one of the loveliest I have ever raised; white in centre, deepening to a beautiful pink at tips. Incurving in form, fine in petal and of great depth. A grand exhibition variety, \$1.
- 56 **Cockatoo.** Ground color, clear yellow, which towards outside of flower assumes a pale fawn tint; every petal being tipped with white, 50c.

GLADIOLAS.

The Gladiolas constitute one of the finest features of the flower garden during the summer and autumn months, for diversity of color and general effect, either in masses or planted in clumps for border decorations. It is also easy of culture, and will thrive, with a liberal supply of manure, in any ordinary garden soil. Early and deep planting is the secret of success.

I have one of the finest collections in mixed colors at 25c. per dozen, \$1.50 per 100. Express collect.
